

## Become an EcoClaim Certified Contractor & Be Built for What's Next

### The Game Has Changed. Are You Ready?

The new focus isn't just how fast you can restore, it's how smart you rebuild. Captives, insurers and national accounts aren't just buying speed to restore anymore, they're buying resiliency, risk reduction and ESG performance.

### Win More RFPs & National Accounts

- EcoClaim Certification turns you into the partner **they have** to choose.
- Differentiate your business.
- Stand out to large captives and forward-looking brands.
- Align with ESG-focused procurement programs.

Get certified now!

### Certification

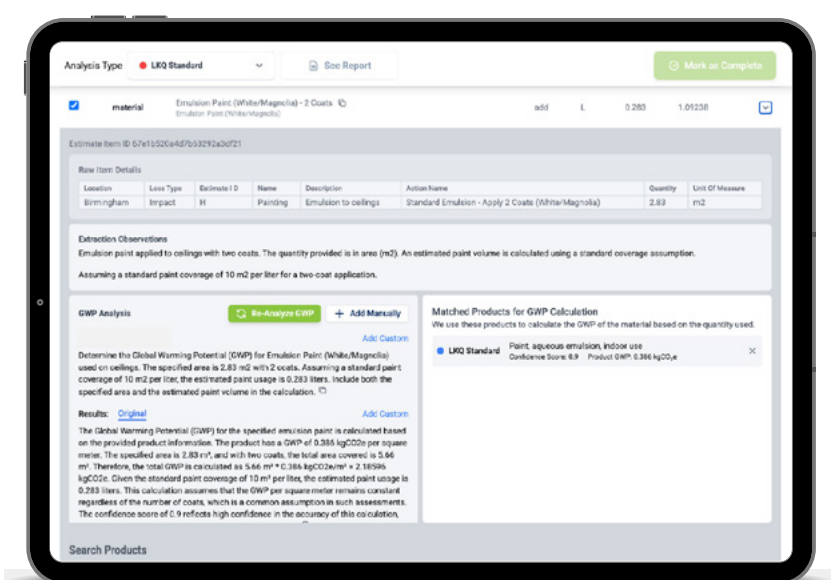

Your digital certification badge signifies to claims managers that contractors can report and reduce emissions on property insurance claims. Use it across marketing materials to get the most benefit.

### Continuing Education

EcoClaim courses counts towards CE credits for RIA, IICRC and other certification bodies.

## EcoClaim ReBuild Better™ - Do More Than Restore

### Resiliency

- Offer smarter rebuilds that suggest:
  - More sustainable
  - More durable
  - More energy-efficient materials.
- Click-to-upgrade: Make EcoClaim ReBuild Better™ recommendations right at the point of claims estimate, no delays, no hassle.

## Reduce Friction. Save Money. Save Time.

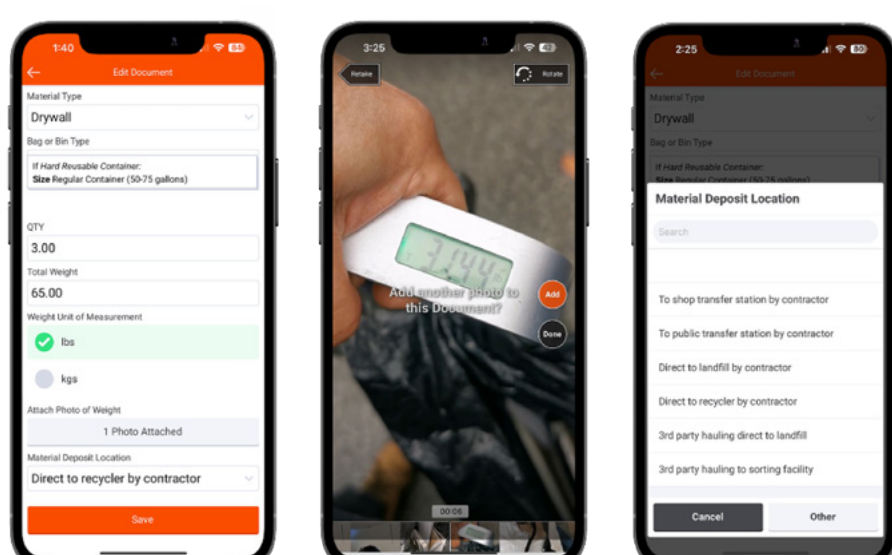

### Integration With Common Business Apps

- Seamless integration with the tools you already use like Encircle and Clean Claims.
- No duplicate entry. No extra work. Just better outcomes.
- Save 10-15% on disposal costs.

### Custom Forms

We create custom forms for business apps used by contractors to ease field level emissions data collection.

### Coaching Meetings for Contractors

1:1 support with our coach to customize implementation, troubleshoot integrations and more!

Let's get you certified, connected, and ready to grow.
